INTEREST

EXPERIENCE

NOV 2020

Oct 2019

UI/UX Designer

Java Computer Tech - Doha, Qatar

User & Interface Design of Web App & Mobile Application

Led the design of user interfaces ensuring seamless user experiences for various software applications including In-house Dental Software, HR Software, Food Delivery Apps, Corporate Websites, E-commerce Platforms, and Social Media.

Logo Design & Branding

Developed compelling logos and cohesive branding elements that resonated with the essence of different businesses. This included creating visual identities that aligned with brand values and communicated effectively with the target audience.

Front-end Development

Implemented front-end development tasks primarily using WordPress, leveraging HTML, CSS to execute designs seamlessly. Ensured responsive and user-friendly interfaces across various platforms.

JUNE 2019

Dec 2018

Software Tester / Software Developer

Innosoft Solutions - Philippines

Conducted rigorous testing and identified bugs in key software products:

- **POS Sales & Inventory:** Streamlined a user-friendly 3-in-1 POS system, ensuring operational simplicity and robust data gathering for business decisions.
- **iFMIS Accounting & ERP:** Tested enterprise-level financial systems, optimizing customer management, supply-chain processes, and financial reporting.
- **iHRIS DTR & Payroll:** Ensured accuracy in HR management for large, geographically dispersed branches, focusing on attendance, payroll, and employee records.

Contributed to programming tasks

using C# and VB, aiding in software functionality development and maintenance.
